IMPORTANT Update Regarding Coronavirus and Quarantine Guidelines

Federal Guidelines are summarized by Dr. Sara Cody below and state the following:

1. Any staff or student who has been in the Hubei province within the last 14 days should not attend school. They should be at home, in a separate room, with separate bath, until 14 days after last exposure to Hubei. They should monitor for symptoms and report any symptoms to Public Health. They should not seek medical care without calling ahead first and letting care providers know of their exposure history.
2. Any staff or student who has been in China, in a province other than Hubei province, within the last 14 days should also not attend school. This would be voluntary quarantine, with symptom watch.

Dr. Cody reiterated the importance of common-sense precautions to prevent the spread of all infectious diseases:

1. If you're sick, stay home.
2. Wash your hands and don't touch your eyes, nose, and mouth.
3. Recommends getting your Flu shot.
4. Cover your cough.
